Thanks for the response. Please take a harder look because under the statutes we have not seen DOJ take such a position. We will raise the issue with the Court at the appropriate time.

Kirk,

Thanks for your letter. We believe the notices are required by statute, and are identical in content and timing to what is done in every case in this district, but we're happy to take a harder look at your letter and consider your concerns. Also, I don't know if you're aware, but in one of our pre-indictment meetings, I told Pete we considered the patients victims for the Mohs and wound repair allegations, so hopefully the victim notices aren't coming as a complete surprise.
